ABOUT US

VISHAL BATTA brings a wealth of expertise to the Sanitaryware industry, boasting 22 years of experience that spans from the early days of 2004. As a pioneer, he played a pivotal role in setting trends within the Sanitaryware sector. In 2017, his visionary leadership led to the establishment of manufacturing operations in Construction chemicals, Under the name of GANPATI CONSTRUCTION CHEMICALS, further solidifying his commitment to innovation and quality. With an unwavering dedication to excellence, Vishal Batta continues to shape the industry landscape and uphold the highest standards in both Sanitaryware and Construction chemical domains.

KAUSHAL DHIR is a distinguished marketing professional with an impressive track record, amassing over 20 years of experience at renowned companies. Since 2013, he has been a visionary leader in the Sanitaryware and Bath Faucet industry, steering our commitment to innovation and excellence. His wealth of experience serves as the driving force behind our dedication to delivering products that not only meet but exceed industry standards. Under Kaushal Dhir's leadership, we continue to set new benchmarks in the market, ensuring our customers receive cutting-edge solutions with a touch of seasoned expertise.

In 2022, With two innovative minds, **Lourit Bathware** came to life to offer complete range of Luxurious bathroom solutions. Lourit Bathware is a research and marketing unit of bathroom products or a one stop solution for your need. We know the taste of people with experience in sanitaryware industry so we are on the way of giving the best quality in Luxurious Style sanitaryware products. Reason of establish of Lourit Bathware is that we have group of Loyal Customer with good choice and we want satisfaction of our those customers.

In 2023, We start manufacturing of construction chemicals (Adhesive, Epoxy, Cleaner, Grout etc.)

In 2024, We start automatic manufacturing unit of customized bathroom vanities, modular kitchens and furnitures etc. we also launched architect series (customized wood work).

INSTALLATION INSTRUCTIONS

INSTALLATION DETAILS OF WALL HUNG

CONCEALED WALLHUNG

1. If the wall is going to be plastered for a thickness of 12 mm and a tile thickness of 6-7 mm, the projection of the bolts from the finished wall should be 66mm only.
2. If the thickness of Plastering and tile is less than the dimensions mentioned above, the bolts that are supplied along with the bracket should be moved into the wall by using a suitable spacer washer between the bolt head and the bracket frame.
3. The bracket should be buried into the floor so that the height from the center line of the bolt to the surface of the finished floor is 320mm.

MAINTENANCE

Like any other part of your houses, the bathroom can be made to look great and made to last long if it is taken care of regularly. To make your bathroom beautiful here are some invaluable tips.

Wash Basin

A mild detergent can be used to wash the basin at least once a day. After washing, the basin should be wiped out clearly to avoid water stains.

Closets

Cleanser like harpic can be used to clear the closet with soft plastic brush, at least once a day. To avoid minute discoloring, after flushing the toilet give it a once over with the soft brush.

Keep the toilet brush handy in a convenient stand nearby. In case toilet and basins, if there has been no maintenance since long period of time, water deposit and discoloration can form on the surface of areas that get wet. In such cases, these stains/marks can be removed with the help of a solution of dilute hydrochloric acid. Clean with a soft cotton cloth and warm water with soap. Do not use thinner, dry cleaning liquids or powder paste. Use a liquid cleaner at least twice a week. Use Brasso or car rubbing compound and then polish with a cloth to remove fine scratches.

COUNTER WASHBASIN

At the beginning

1. A skilled or experienced person should install counter lavatories.
2. Avoid using adhesive with this product.
3. Check the waste area and supply tubing if required.
4. Do not open the lavatory from its protective carton until you are ready for installation.
5. Please follow all local building and plumbing codes.

MATERIAL & TOOLS

Measure tape, keyhole or saber saw, Hammer, Glasses, Rag or Paper toweling, Drill (1/2 dia, drill bit or larger), Pencil, sealant, sharp knife or scissors.

WALL HUNG BASIN

- 1) The rag bolt should be first grouted into the wall using cement/concrete, (as shown) as per distance between slots provided in the wash basin. The bolts should be fixed perpendicular to the wall. Allow cement/concrete to set. Check if the Rag Bolts are firmly fixed. Fix the Wash Basin in the bolt using Nut & Washer.
- 2) If brackets are use, prefer nylon or aluminum instead of iron brackets as it tends to rust.
- 3) If small basins are screwed to wall, use nylon washers and steel screws.
- 4) While fixing waste outlet, ensure that the rubber washer is placed on the outlet under the basin.

INSTALLATION OF LAVATORY

Please Note : Please install it in a way that future removal from underneath the counter top is possible without damaging the counter top.

1. Please check the desired location for clearance between the back splash, faucet, fixture and cabinet.
2. Please cut the template.
3. Please carefully trace the template on the counter top as directed.
4. Please mark the faucet hole centerline on the counter top.
5. Please drill a 1/2" pilot on the inside of the cut line.

For Wood Counter tops:

1. Mark and pre-drill the wood screw holes at the locations shown on the template.
2. Waterproof any exposed areas of wood.

For Marble Counter tops:

1. Position the counter top upside down on foam padding to protect the surface. Mark and drill 3/6" holes 5/8" deep at the locations shown on the template.
2. Use a setting tools and hammer to secure the anchors.

For All Installations :

1. If the counter top has not been installed, install it at this time.
2. Drill the faucet holes according to the faucet installation instructions.
3. Install the faucet to the counter top according to the manufacture's instructions.
4. Install the drain to the lavatory according to the manufacture's instructions.
